Plaintiffs' Exhibit

PTX-250

C.A. No. 21-3354 (BAH)

1 RUDY GIULIANI: Hello, this is Rudy
2 Giuliani, I'm bringing to you Rudy's common
3 sense, and maybe one of our more exciting and
4 maybe important podcasts. We've just returned
5 from a four or five-day trip, can't remember
6 quite, but we were before legislatures in Arizona
7 and in Michigan, and in Georgia. And in each one
8 of the cases, we were able to present, you know,
9 substantial evidence that has them seriously
10 considering de-certifying the election.

11 In fact, as they weigh through this
12 evidence, they will find as Professor Eastman so
13 eloquently laid out in the testimony yesterday in
14 Georgia, is really their duty, not just their
15 right, but more on that just a teeny bit later.
16 Yesterday there was a breakthrough of major
17 proportions. With this case treated in a country
18 that's fair, in a country that had a free press,
19 and a c -- country that had not the kind of
20 censorship that's been imposed on us now for well
21 over three or four months.

22 The censorship made up of big tech, big
23 business, big media. NBC, ABC, CBS, CNN. Some
24 mention of it on Fox. Some. Not a lot. A good
25 deal of mention on OAN and Newsmax, that's about

1 it. The American people are now being deprived
2 of the most significant evidence of voter fraud
3 that I've ever seen, and one that answers the
4 question, just in watching it, that all of the
5 allegations the Republicans are making are true.

6 After all, we have produced well over
7 700 affidavits, sworn to by eyewitnesses, and
8 we're told we have no evidence. And the phony
9 media repeats it, and we occasionally have it
10 repeated on Fox. We're told that they've
11 debunked the theory that inspectors were thrown
12 out of examination of mail-in ballots. Instead,
13 we have 4,000 -- 400 affidavits of inspectors
14 being thrown out. There's no doubt they were
15 thrown out.

16 The media prefers to print the lies of
17 Biden, the Democrats, the establishment. Lies
18 supported by big tech, big media, big business.
19 Supported by the crooked Democratic party.
20 Supported by the radicals, by Black Lives Matter,
21 and Antifa, who are all involved in this. And
22 also cheering in the background with some role in
23 it, Communist China.

24 This is a swindle of major proportions.
25 And now you're going to see a tape, honestly,

1 makes it look like a bank heist in the middle of
2 the night. Remember those great movies with
3 Pierce Brosnan? You get in the bank the middle
4 of the night, take that safe apart, nobody
5 around, they'd wait until everybody leaves and --
6 how come they didn't do it in front of the
7 guards?

8 Because they were committing a crime,
9 and they'd get caught. Well, we're going to show
10 to you today, under any other circumstances would
11 be considered a breakthrough of major
12 proportions. All these weeks of Republicans
13 coming up with evidence, evidence, evidence,
14 evidence, affidavits, expert opinions, even some
15 tape recordings. Nothing like this. This is a
16 bank heist pulled off in the middle of the night,
17 clearly indicating that the Georgia Democrat
18 party was stealing the election for Joe Biden on
19 purpose and completely against the law.

20 So, let me get you oriented to the
21 film, because it's a very long film, and we can
22 only show you a little bit of it right now,
23 that's all we have right now are portions of it.
24 I've seen the whole thing, and the whole thing is
25 even more devastating. But it will take some

1 time to analyze it and get it freed up. But
2 here's the point. What you have in front of you
3 now are four frames from four different video
4 cams, safety cams, that recorded probably all
5 night, certainly by 8:00 in the morning they were
6 recording well through 1:00, 2:00, or 3:00 when
7 this all ended.

8 But right now, it looks empty, and I
9 want to therefore lay out what to look for, and
10 where different people were located. If you look
11 in the -- if you look in the upper right-hand
12 corner, you will see that there are a group of
13 tables toward the back. Those are the tables
14 where the calculations and tabulations are done.
15 That's where the votes are calculated and put
16 into the vote count. Presumably examined, and
17 they are supposed to be examined with the
18 observation of third-parties, including
19 Republicans and members of the press.

20 If you come, let's say down or further
21 toward the front of that frame, it's the frame in
22 the upper right-hand corner, and I will list it
23 as frame number one. You'll see a black table,
24 or a table covered what appears to be a black
25 cloth, and then right behind it, something like a

1 table or may -- possibly something else, a bin
2 covered in white. That's where all the activity
3 is going to take place, right there.

4 If you go down from that, you will see
5 number two. Right down from it on the right-hand
6 side of the four frames. You'll see a frame of
7 largely most of the room, except from the
8 perspective now of the people counting the votes.
9 Because they're out of the picture. And they are
10 looking back at what's happening. So, first
11 thing you see on the right is that same box,
12 covered in black with the white box or bin next
13 to it.

14 Then you see another table that seems
15 to have been inserted, and then way toward the
16 back, toward the wall, you see it's empty at this
17 point, but that's where during the day, the
18 observers are allowed to stand and observe. That
19 would include members of the press, Republican,
20 Democrat, Independent, whomever. Public access
21 so you can assure the counting is honest. And
22 what you see here is you see the area where the
23 press and the observers are located, you see that
24 at the very back of the photo, against the wall,
25 and that's basically facing back to frame one.

1 So, one and two constitute one frame.
2 Looking at it this way and looking at it that
3 way. The frames, let's call it three in the
4 bottom left-hand corner is a perspective from the
5 side, and there, we don't seem to have an
6 observation of the critical black table, or the
7 critical table covered in black. To me, it
8 eerily looks like a -- some form of a casket and
9 you expect Dracula to come out of it, but -- and
10 since they do this at 1:00, 2:00 in the morning,
11 maybe it can only be done at night, I don't know,
12 when you commit crimes like this.

13 And when you go up to number four, when
14 you go up to number four you can see we get most
15 of the table in the bottom -- and basically in
16 the bottom of the picture you can see the table,
17 you can see the white -- we don't know if it's a
18 table or bin behind it. And then you can see
19 facing it, the people who are going to be
20 involved in evaluating and counting and
21 theoretically examining the vote, although
22 they're doing very little examining, if any.

23 Now, let me take you back just a
24 little, 'cause we don't have this tape yet. I've
25 seen it, but it hasn't been produced yet. And

1 the lady who is a lawyer from an institute who
2 analyzed all this is going to explain it to you.
3 The votes that were counted around 1:00 or 2:00
4 in the morning were brought in about 8:30 in the
5 morning, the morning before. And they were put
6 under that black table by a lady with blonde hair
7 and braids. That's the way she's described.

8 So, let me play this for you now, and I
9 think this will help you somewhat follow it,
10 although it does happen quite fast, but it is of
11 enormous significance. And by the way, the
12 number of votes here flips. Without any doubt,
13 Georgia from Biden, who hon -- dishonestly won
14 it, to Trump, who honestly won it, and then there
15 are about another 100,000 votes that also were
16 stolen, but this alone does it.

17 WOMAN 1: At about 8:00 in the morning,
18 we're going to roll this back and show this to
19 you. There you go. So, now they're going to
20 start pulling these ballots out from under this
21 table. This table, the black one, was placed
22 there by the lady with the blonde braids at about
23 8:22AM in the morning. So, she put that table
24 there. So, the same person who's staying behind
25 now, the same person who cleared the place out

1 under the pretense that we're going to stop
2 counting is the person who put the table there at
3 8:22 in the morning. Yeah, I saw four suitcases
4 come out from underneath the table.

5 RUDY GIULIANI: Now we can see the lady
6 in the left-hand corner, who had just come to
7 take the ballots from under -- hidden under the
8 table over to the left-hand corner counter, and
9 she's giving them out and apparently giving some
10 instructions to the person who's going to count
11 those ballots. There had been one previously
12 given out, and now we're going to see a man in a
13 red or pink, depends on how the coloring came out
14 here, take another batch of votes hidden under
15 the table for a clandestine examination without
16 observation by anyone independent.

17 WOMAN 1: Yeah, upper right-hand, you
18 see the gentleman in the red? So, he just pulled
19 one out.

20 RUDY GIULIANI: Just to stop for a
21 minute, you can see that the man in the red went
22 all the way from there to the furthest part of
23 where the counters are. You might not be able to
24 see him now, but I'm putting a marker on him, and
25 he's all the way over in the corner showing the

Page 10

1 counters in the corner what to do. The woman in
2 -- with the yellow sweater on, who had delivered
3 that batch to the group on the left has -- seems
4 to have already completed her mission in telling
5 them how to count and presumably telling them to
6 count quickly, because I want you to note, that's
7 why I stopped it, that when you watch this and
8 you look down to frame two, would you please
9 notice that there are no observers?

10 That whole observer table has no one.
11 Not a single person. This is why it was done
12 this way. So, they be go -- so they could be
13 counted when there was no observers around.
14 What's the point in bringing them in at 8:00 in
15 the morning, not counting them right away in
16 front of the observers, and waiting until 1:30 in
17 the morning and counting them then, with nobody
18 around?

19 What that adds up to in any trial, in
20 any Court in America, is evidence of guilt. They
21 didn't do this because it was more fun to do it
22 secretly. If these were honest ballots, they'd
23 have been very happy to show it to the
24 Republicans and the reporters. But if these
25 ballots are all in the same signature, have

Page 11

1 tremendous deficiencies, need to be filled in
2 more, maybe a blank had need to be filled in,
3 they are perfectly at liberty now to do it, and
4 the protection that the law of Georgia, and then
5 ultimately under the United States Constitution,
6 the Constitution of the United States gives you
7 for the protection [INDISCERNIBLE] has just been
8 devastated. It's just been ruined by Georgia.
9 We'll be right back. [COMMERCIAL]

10 Welcome back to a story that, if it
11 doesn't shock you, there's something wrong.
12 Let's go on with this wonderful presentation by
13 the expert.

14 WOMAN 1: So, what are these ballots
15 doing there, separate from all the other ballots?
16 And why are they only counting them whenever the
17 place is cleared out with no witnesses? Is the
18 question. So, these machines can process about
19 3,000 ballots an hour. You have multiple
20 machines there. And they're there for two hours.
21 So, you do the math. How many ballots went
22 through those machines in those two hours when
23 there was no one there to supervise, to be
24 present, consistent with your statutes and rules
25 to supervise the tabulation?

Page 12

1 We believe that could easily be, and
2 probably is certainly beyond the margin of
3 victory in this race.

4 RUDY GIULIANI: So, let's write her
5 numbers down. She says, and you now at home, you
6 correct me if you're wrong. If I'm wrong, put
7 your hand up, I'll be able to see. So, we have
8 3,000 per hour per machine. Okay. We have -- we
9 don't know yet, and we'll find out officially
10 what we have. If we look up and we look at frame
11 one, which appears to be showing all the ballot
12 counters. Like, the ballot counters seem to be
13 at one end of the room where the glass partition
14 is, and the observers are at the other end of the
15 room, so far away that let's start with the fact,
16 even the ballots that were processed before,
17 nobody got a right to observe.

18 'Cause you can't see a football field
19 away, you know? Unless you're Tom Brady, maybe.
20 And he wasn't there. So, they were stealing all
21 day, but now they're in bank heist territory.
22 I'm surprised they didn't have masks on, you
23 know? Or maybe they do have masks on for COVID,
24 we'll have to take a look. Hey, those COVID
25 masks came in handy for these crooks, huh?

Page 13

1 So, let's count the number of tables we
2 see there, which at least can give us some
3 indication of the number of machines that we're
4 going to multiply by 3,000. I'm counting now
5 from left to right. I count one, two, three,
6 four, and five. That fifth one is where the man
7 in red went to the very back and had it done.
8 The first one is where the woman with the yellow
9 shirt on brought the ballot she took out, and
10 then we saw them brought to the two in the
11 middle.

12 So, I would say there were one, two,
13 three, four, five operating machines. Five
14 operating machines per hour, 3,000 per hour, so
15 that's 6,000 in two hours. Who would like to add
16 up five times six? That's an easy one, right?
17 30,000. What was the margin of victory? 10,000.
18 Election over. These were taken out of Maricopa
19 County, where he was ahead, it also should be
20 taken right out of the Democratic number.

21 These aren't Republican County
22 officials. These are Democrat County officials.
23 Why should Republicans suffer for the crimes of
24 Democrats? I know in Washington that's what they
25 try to do, but in America people suffer for the

Page 14

1 crimes they committed. So, these 30,000 votes
2 should be taken right out of Biden's number, they
3 were done by Biden's people.

4 In fact, they were done so blatantly by
5 Biden's people, our people were thrown out. And
6 I know there's no longer a free press, but why
7 aren't they angry that they were thrown out?
8 Because they're in the tank. I don't know if
9 that's an expression everyone knows, it may be a
10 New York boxing expression. In the tank means
11 you've been corrupted, you've been bought off.

12 It means you're one of these creeps
13 that can be purchased. If a reporter looks at
14 this and doesn't see a Pulitzer-prize winning
15 story, then give up the profession. Go do
16 something else. M -- they might have done a bank
17 robbery better than this. And let's see what
18 kind of phony excuse the Fulton County crooked
19 Democrat counting machine is going to make for
20 this one.

21 And let's see if the crooked press
22 accepts it. And let's see if any of the networks
23 cover it. And then when the whole tape comes
24 out, and it's completely analyzed, here's what
25 you'll see. You'll see them coming in in the

Page 15

1 morning, all friendly, all everything. The
2 observers are put at the, as you see in frame
3 one, at the far end of the room where they can
4 see nothing all day. They complain all day that
5 they can see nothing. They are ignored all day
6 by the crooks. So, all those ballots counted
7 should be discounted.

8 But in case you just can't buy that, in
9 case we have to hit you with evidence that we
10 normally don't get in order to break down the
11 propaganda exercise that was done on your mind,
12 what you just saw is probably one of the most
13 dramatic examples I've ever seen of someone
14 trying to steal a election for President of the
15 United States. I mean, these people should all
16 go to jail for a long time. And it's not good to
17 say like, some of the Senators tried to escape
18 it. We'll fix it in the next election.

19 Oh my goodness, they've been saying
20 that for -- they've been saying that in
21 Philadelphia for 50 years. They've been saying
22 that in Chicago since Daley stole the 1960
23 election. I mean, all these Democratic cities,
24 they've been saying for years they're going to
25 fix it. They're not going to fix it. I know how

Page 16

1 you fix crime. You put the criminals in jail,
2 and you reverse the consequences. And there are
3 laws to do that. This is beyond the competence
4 of the rest of the State Government.

5 The United States Constitution, as I
6 pointed out, gives us the remedy, the sole
7 remedy, and this is a chance for us maybe to work
8 our way out of this by re-affirming the genius of
9 the United States Constitution. Can you believe
10 that our founding fathers anticipated that this
11 kind of corruption could happen? Of course you
12 can believe it. Madison once said, if men were
13 angels, we wouldn't need governments.

14 Jefferson, Franklin, all had a equal
15 critical attitude of the human personality that
16 could easily lead to corruption because of the
17 desire for power and money, and boy, these
18 crooked Democrats have both. Hilary pulling down
19 hundreds of millions with the Clinton Foundation
20 illegally, Biden pulling down hundreds of
21 millions with the Biden Family organized crime
22 group.

23 That's who we're dealing with. But,
24 let me give you a little more of the evidence
25 there, because although this all by itself

Page 17

1 decides the election, let me say, you're not
2 dealing with just this one group of fraudsters in
3 Fulton County. According to the analysis done by
4 a recognized election expert, a man who holds an
5 MBA from Harvard, a science degree from Duke,
6 he's worked for NASA, he's worked for MIT, he
7 does statistical analysis of many, many different
8 things, including elections.

9 He has submitted an affidavit and in
10 Court, affidavits of experts are evidence. This
11 is the evidence they say we don't have. I'd just
12 like you to look at it and sort of, if you see
13 one of them, just show it to them very nicely,
14 very politely, and say, I'm a meek little
15 Republican. And I know that you've been pushing
16 us around for years. And I know you're much
17 tougher than we are. But you know you cheated.
18 Would you please admit it? See, this is the way
19 I caught a lot of criminals, that way.

20 That's the way I caught the cri -- I
21 went up to them and I said, I'm really afraid of
22 you, but would you mind in fact Tony, just
23 testifying and telling me how many people you
24 killed? I don't know what's wrong with us. The
25 Democrats get together, stick together to commit

Page 18

1 heinous crimes. We can't get our people to do
2 the right thing. I mean, why hasn't the Governor
3 called a special session?

4 He's all worried about people not
5 voting in the Senate election, not -- doesn't he
6 understand why they're upset? Don't you get it?
7 They're upset because they were cheated. They
8 see something like this, they're going to go
9 crazy. They should. They were cheated. The
10 people of Georgia voted for Donald J. Trump.

11 And the Democrats and Trump stole it
12 with the help of the media, big tech, and with
13 the help of Republicans that don't have the spine
14 to stand up to them. I don't expect us to be
15 dishonest at all. I expect us to have courage.
16 So, how about this? If you feel uncomfortable
17 about changing the vote in Georgia, let me make
18 you feel much more comfortable.

19 Georgia ballots, with no return record
20 at all. In other words, there's no record that
21 this ballot was returned, because when the ballot
22 is returned the number is checked off against the
23 application when it was sent out. There were
24 231,188 of those. During the course of the pre-
25 election, they were able to cancel out about

Page 19

1 134,588 of those. However, they included ballots
2 with no return record, and they voted 96,600 of
3 those. Those should all be taken out. Those are
4 all illegal.

5 They should be taken out, based on
6 where they were in the County, and I would argue,
7 given the fact that this fraud was perpetrated by
8 the Democrat party, should be taken out of the
9 Democrat count exclusively, rather than just
10 generally taken out of the vote as if it was
11 just, you know, a mistake. This isn't a mistake.
12 This was deliberate. By the way, they run the
13 vote counting. The Democrats run the vote
14 counting, so why should we be penalized for their
15 crimes?

16 There's another 96,000 votes. So, now
17 we have Trump winning by 96,000, 30,000. Oh gee,
18 120. Kind of like where he was on election
19 night. I wonder if they didn't have it all
20 organized to throw people out and catch up with
21 phony ballots. Hmm. Oh no. Democrats wouldn't
22 do that. The media says Democrats are very
23 honest and never engage in election fraud, and
24 this must be a -- this must be a hallucination of
25 some kind, if they did this.

Page 20

1 They're going to say that -- well, I
2 guess I'd better say right away, I didn't get
3 this from any Russians. There are no Russians in
4 here, so the Times can't say it came from Russia,
5 which would be their next argument. We'll be
6 right back. [COMMERCIAL]

7 Welcome back. Also, there were
8 witnesses, numerous eyewitnesses, I mean we can -
9 - we're backed up with about 50, we presented
10 about 12, and their testimony was all
11 devastating. There were eyewitnesses to fraud.
12 Dana Van Buren Smith, who was a poll worker in
13 Hart County, she stated that she was instructed
14 to bring the ballot bags to the election office
15 unsealed. Why unsealed? 'Cause it's a lot
16 easier to cheat with them when it's unsealed.

17 She was -- noticed them counting from
18 the back room, where they were in cardboard boxes
19 rather than the ballot bag that she sealed on
20 election day, which means they either took the
21 sealed box on election day and decided to put it
22 into a crappy box, cardboard box, or these were
23 just extra votes that had been brought in from
24 somewhere in cardboard boxes that just got added
25 to the tally and explains some of that difference

Page 21

1 between the ones that are unaccounted for.

2 I also observed that the special paper
3 ballots were stacked neatly in the boxes, whereas
4 on election night, they were all thrown together
5 in the ballot bags. She called the situation a
6 security nightmare. The counting center, a
7 security nightmare. Another one of our poll
8 watchers who stayed there all day, just a very
9 nice person, very spirited public citizen, a
10 gentleman named Mark Amick. Mark Amick stayed
11 there for two days as an observer and never got
12 to observe a single ballot, ever.

13 He was put so far away at that Fulton
14 County thing we saw, that he couldn't see
15 anything, even with binoculars. I could not read
16 the ballot selections made by the voter on the
17 original ballot or the ballot selections made by
18 poll worker on the second ballot. They were
19 filling out new ballots. They were taking a
20 ballot. Taking -- and they were filing it out.
21 First of all, that's illegal. Number two, did
22 they put the right name down?

23 Well, Mark Amick said, this was done
24 over and over again. He complained about it, but
25 he couldn't read or verify the ballot selections,

Page 22

1 and eventually by complaining so much, he was
2 thrown out. He supplied some pictures of just
3 how far away he was. He supplied some pictures
4 of just how far away he was. And how in fact,
5 there was even a pole put up to make it more
6 difficult for him to see anything.

7 But I mean, this is outrageous.
8 They're supposed to be observers, and they're not
9 observing. And then we have an affidavit from
10 Bridget Thorne, who says over the entire course
11 of my experience these test ballots were handled
12 by Dominion employees in a haphazard and careless
13 way. At times there were stacks of test ballots
14 unsecured over the facility, which meant that
15 there were numerous ballots that were available
16 to put in to make up for the difference that
17 brought Biden back with phony votes.

18 And then another Witness under oath,
19 Susan Foyles, said that she looked at a large
20 number of ballots, and she's been doing this for
21 20 years. I observed that the markings for the
22 candidates on these ballots were unusually
23 uniform. Perhaps even with a ballot marking
24 device. By my estimate in observing these
25 ballots, approximately 98 percent constituted

Page 23

1 votes for Joe Biden. I only observed two of
2 these ballots as votes for Donald J. Trump.

3 While there are others -- many others,
4 I can show you this chart, which shows you that
5 in the middle of the night, out of nowhere, Biden
6 gets 107-point jump. 107-point jump. So, we get
7 a pretty good idea of who those ballots were for
8 under the table. Well, this is a pretty darn
9 terrible situation is it maybe one of the worst
10 in vote counting in our history, because this is
11 not isolated to Georgia, this is true in
12 Pennsylvania, it's true in Michigan, it's true in
13 Wisconsin, it's true in Nevada, it's true in
14 Arizona, and it's true in Georgia, and we have so
15 many reluctant Republicans so afraid to do their
16 duty.

17 Oh my good -- the Democrats steal with
18 impunity, and we are afraid to do our duty.
19 Where's our gumption? Where's our backbone?
20 Where's our dedication to our Constitution?
21 Well, the Supreme Court assuming that we did have
22 heroic patriots came up with a solution.
23 Solution is in article 2, section 1, clause 2 of
24 the United States Constitution. And it says that
25 the State Legislature shall be the sole regulator

1 of elections for President and the selection of
2 electors.

3 The case, McPherson v. Blacker says
4 that it is a penury power, and it goes on to say,
5 whatever provisions may be made by statute or by
6 the State Constitution to choose electors by the
7 people, there is no doubt of the right of the
8 legislature to resume the power at any time. The
9 State of course, after granting the franchise in
10 the special context of article 2 can take back
11 the power to appoint electors.

12 And that is particularly true when
13 there are indications of fraud in the election.
14 There are not indication of fraud in this
15 election. There's overwhelming evidence of
16 fraud, including now a smoking gun bank robbery
17 videotape. What do we need, State Legislatures?
18 What do we need? This is not our obligation to
19 the Republican Party, although that wouldn't be
20 bad, either, since our party is being raped by
21 them.

22 This is our obligation to our country.
23 The only way you stop this is by stopping it
24 cold, now. We don't fix it for next time. Next
25 time it gets worse. They come away from this

Page 25

1 saying, boy we can really roll these boy scouts,
2 I'll tell you, we can roll them. We cheated so
3 bad and so obviously, and these guys just don't
4 have the gumption to stand up to us. They're
5 afraid of what the Washington Post is going to
6 say or the New York Times is going to say, or NBC
7 or ABC or da da da da. The whole thing.

8 What they should be afraid is, what's
9 your conscious going to say? If you believe in
10 god like me, what's god going to say? The
11 Professor, Professor Eastman, ended it with three
12 questions that I asked. Number one, does the
13 Legislature have the power to take evidence and
14 make findings of fraud? The answer, yes.

15 Number two, can the Legislature call
16 itself into session, since this is a power that
17 derives from the United States Constitution, not
18 the State Constitution? Answer, of course. And
19 number three, can one of the remedies be awarding
20 the electors to the aggrieved candidate?

21 The answer to that is, of course. If
22 the evidence is there. Well now, if this doesn't
23 move our Republican Governors and Legislatures to
24 step up in the name of their country, to save
25 this election, what do we have in our party? I

Page 26

1 don't care if you were once for McCain or you
2 were once for this one or once for that one. I
3 was once for McCain. McCain was a friend of
4 mine. I campaigned for him. I ran against him
5 and he remained my friend.

6 Let's break all this viciousness now.
7 This is above us. It's too big. This is too
8 big. It's not about Trump, it's not about Biden,
9 it's not about John McCain. It's not about some
10 petty grievance or -- we let this happen, we have
11 in one year allowed them to erode our right of
12 freedom of religion. Really, really limit our
13 right of free speech with the lockdown and the
14 way in which they've imposed an almost iron-
15 curtain silence.

16 And now we've let them substantially
17 destroy our right to vote. It's time for
18 patriotism to stand up. You can take the
19 pressure. You might get doxed, I don't know what
20 will happen to you. How do you want to live your
21 life? You want to live it as a patriotic
22 American, or do you want to live it as a
23 sniveling little coward? When people get called
24 on, some men and women get called on, they give
25 their lives for our country, and they say yes,

Page 27

1 and they realize it's unfair that they're the
2 only ones selected.

3 Well this time, the finger of
4 responsibility points to you, the State
5 Legislatures. You can save our country. You can
6 do something so historic, so brave, we can write
7 a new profile (indiscernible). Maybe we need
8 that. Maybe that turns us around like that. I
9 implore each one of the State Legislatures to
10 take up a new special session, listen to the
11 evidence, look at the smoking gun, and make your
12 determination in conjunction with the
13 overwhelming evidence that Biden deliberately
14 stole this election. And actually lost it to
15 Donald Trump by a fairly wide margin. Thank you.
